Subject: Application for Capstone Internship – Software Testing / Quality Assurance

Dear Sir/Madam,

I am writing to express my interest in the capstone internship opportunity in Software Testing / Quality Assurance at JESA.

Currently, I am a final-year student at the École Marocaine des Sciences de l'Ingénieur (EMSI), specializing in Applied Computer Methods for Business Management (MIAGE). I am seeking a final-year internship, and I am very enthusiastic about the possibility of joining your team in Casablanca to gain practical experience in software testing, quality assurance, and test automation.

I am also currently preparing for the ISTQB certification, which strengthens my knowledge and skills in testing methodologies, best practices, and quality assurance processes.

JESA is recognized for its expertise in information technologies and its commitment to delivering high-quality solutions. Its values and innovative approach perfectly align with my professional aspirations. Joining your team would be an exceptional opportunity to learn and contribute to impactful QA projects.

During my studies at EMSI, I have developed strong skills in test case design, automated testing with tools such as Selenium and Postman, defect tracking, and collaborative software development. I have also completed academic projects that enhanced my analytical thinking, attention to detail, and problem-solving abilities.

I am confident that my technical skills, adaptability, and team spirit will allow me to integrate quickly and contribute effectively to ongoing QA projects. I am particularly motivated to participate in improving software quality and ensuring reliable solutions for JESA's clients.

I would be delighted to discuss my application further in an interview and explain how I can add value to JESA.

Thank you for your time and consideration.

Sincerely,  
Najat EL OUAHI
